

**11/01/2010 - NAMM 2010: Proel launches its much-awaited Sagitter line!**

The NAMM Show will provide a wonderful occasion to showcase Sagitter, the celebrated lighting brand recently acquired by Proel.

After several years without new products, thanks to Proel's intense R&D activity in the last months, show visitors will be granted the exclusive preview of the much-awaited-for and original Lighting product range of this historic all-Italian brand, synonym of high-end quality.

Sagitter, which has been for years a benchmark brand in Professional Lighting, is the result of Italian inventiveness and, thanks to its particular focus on innovation and conceptual design and to its distinctive and exceptionally high-quality product solutions, it achieved a huge success all over the world.

Proel's new Sagitter product range includes the ARROW Series moving heads, with the 700 model, available in Spot and Wash versions, featuring a 700W Lock-it lamp, Art-Net interface and high-quality performances; the 1500 model features a 1500W Lock-it lamp, is available in Spot, Wash and Spotbeam versions and is covered by international patents.

ARROW Mirror is a moving mirror which, combined with the new patented INFINITY Evo Color 575 Beam colour-changer, can create stunningly evocative visual effects.

Particularly interesting is the INFINITY Series, which includes 1200W scanners that are almost completely manufactured in Italy. Last but not least, the historic and world-celebrates series of TRACER and SUPERTRACER followspots.

The brand new MANTIS LED projector, with 90 RGB 3W LEDs, expresses a notably innovative conception.

The Strobe Digiflash, protagonists of the history of lighting effects, and the professional series of smoke and fog machines complete this new Sagitter product range, the final result of the endeavours of the R&D labs coordinated by Proel.

All the products will be available for purchase by the end of next spring, in line with Proel's plans, pointing to the top of Professional Lighting, especially in international markets, where Sagitter is widely recognized as one of Italy's leading brands, particularly in the Rental, Theatre and Live market segments.
